PALLET BOX

1200x800 LIGHT II

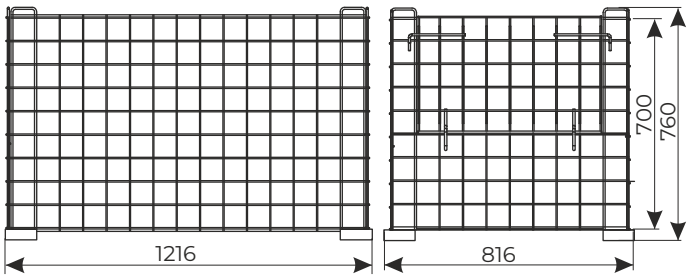

This pallet box together with the wooden pallet creates a full value container, making it possible to store and transport loose goods, using of the pallets.

An half-opened frame on the front or side wall (1200 mm) allows for easy access to the goods stored inside the box.

Pallet Box can be folded back flat against the pallet 1200x800. That makes the container easy to transport. Its small dimensions after folding means that when a box is not being used, it doesn't take up warehouse space.

DIMENSIONS:
