MODULAR BOXES FOR TROLLEYS

VARIANT A & B

VARIANT A:
Sample configuration -
3-rows box

VARIANT B:
Sample configuration -
3-rows box

VARIANT B:
Sample configuration -
1-row box

Modular box for trolleys is used to park shopping and transport trolleys.

Variant A:
The modular construction of the box allows for any configuration of the width, length and number of rows. That allows to adjust the box to the width and the planned amount of the trolleys. Option A has modules that separate from each other rows of trolleys.

Variant B:
The modular construction of the box allows for any configuration of the width, length and number of rows. That allows to adjust the box to the width and the planned amount of the trolleys.
The possibility of ordering the box with the width from 550 mm to 3000 mm allows for adjust the box to 1,2,3 or 4 rows with trolleys.

Standard coating: galvanized zinc + lacquer

Modular box is available in two options of mounting to the ground:
-with feet (bolted to the ground)
-with anchors (concreted in the ground)
