WAREHOUSE TROLLEY

WMU-1700x800x600

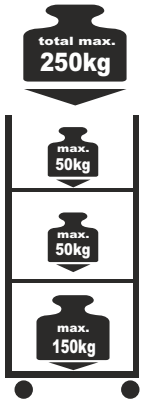

The universal WMU 1700 × 800 × 600 warehouse trolley is a multi-purpose solution for transporting, sorting, and order picking a wide range of goods. Thanks to its flexible shelf configuration, it easily adapts to changing operational needs, supporting efficient workflow organization in warehouses, distribution centers, retail stores, and service facilities.

DIMENSIONS:

PARAMETERS:

Technical data: The trolley frame is made of closed steel profiles, which ensure the appropriate stability and durability. Side mesh panels constructed from steel rods enhance load stability and prevent goods from moving during transport. The lower base is equipped with a set of wheels, allowing smooth maneuverability and comfortable handling even when fully loaded.
The standard set includes 2 shelves.
Wheel diameter: Ø 100, poliamid
Standard coating: galvanized zinc + lacquer
Total loading: 250 kg,
Shelf loading: 50 kg.

EXEMPLARY CONFIGURATIONS:
