WAREHOUSE TROLLEY WITH DOORS

800X700X1500

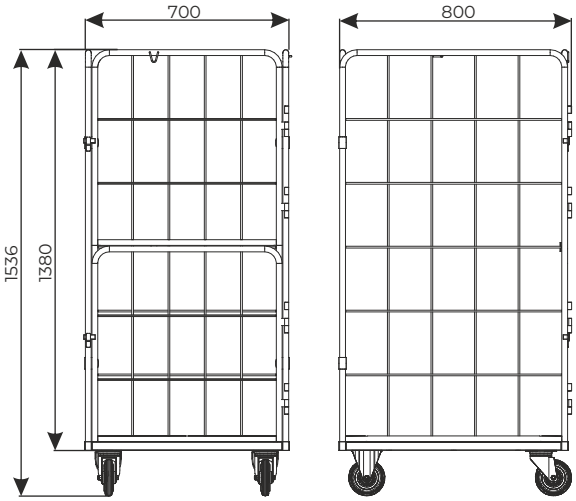

The warehouse trolley with doors is a functional solution designed for safe and convenient transport of goods in daily warehouse and logistics operations. Its lockable structure protects the transported items, while the front doors provide quick and easy access to the contents without the need to remove an entire side panel. The large capacity and stable construction make this trolley ideal for use in warehouses, distribution centers, retail stores, and manufacturing plants, as well as in laundries, hospitals, and other facilities requiring secure material handling.

DIMENSIONS:

PARAMETERS:

Technical data: structure of roll cage made of pipes and steel meshes, bottom made of steel wire, bottom with wheels
Wheel diameter: 125 mm
Standard coating: galvanized zinc + lacquer
Total loading: 300 kg
