WAREHOUSE TROLLEY

„Z” 800X600 H1810

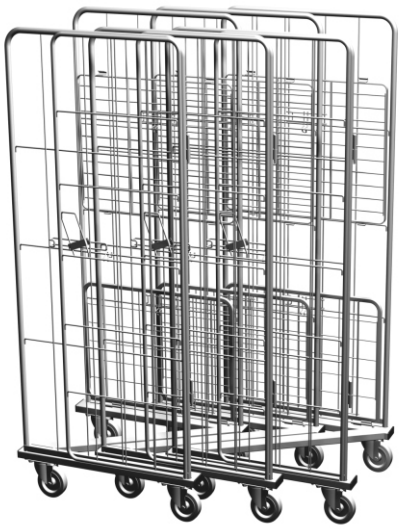

basic version
of the rollcontainer

example configuration with
optional equipment

Possibility of nesting
of folded containers

Shelf reinforced with flat bars:

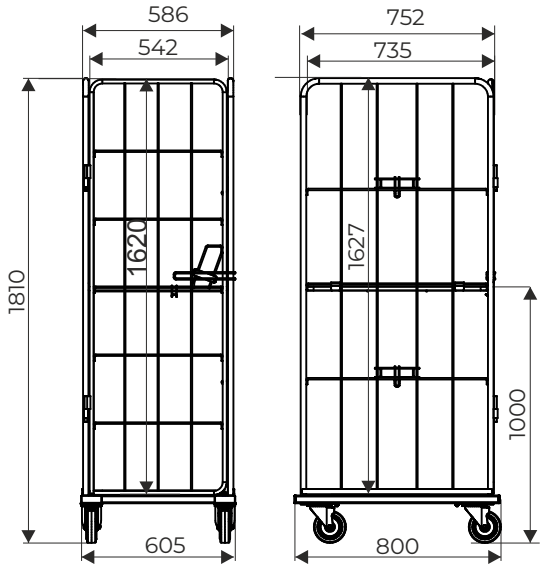

Chassis on wheels

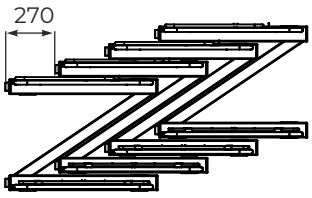

Optional equipment:
- rear wall,
- textile belts.

The “Z” warehouse trolley with a lower Z-frame is a functional solution for transporting and storing goods. Its specially designed base allows containers to be nested, increasing the number of trolleys transported at once and reducing logistics costs. This model is ideal for everyday warehouse and distribution work, supporting efficient process organization.

DIMENSIONS:

Nesting of folded
containers (top view):

PARAMETERS:

Technical data: The structure is made of closed steel profiles and steel rods, ensuring high durability.
The base is equipped with two fixed wheels and two swivel wheels for easy maneuverability.
A reinforced bottom shelf stabilizes the load, while the foldable design enables container nesting.
As standard, the trolley is equipped with a mobile base and two side panels.
Standard coating: galvanized zinc + lacquer
Wheel diameter: Ø 125 mm
Total load capacity: 500 kg
Shelf loading: 100 kg
Nesting distance:
270 mm
