ELECTRONIC ENTRANCE GATE PORTA'E NOON
WITH A CODE SCANNER
(THE SELF-SERVICE CHECKOUT ZONE)

Basic equipment of the system is electronic gate Porta'e Noon and the stand with a code scanner.

Built-in microcomputer with barcode scanner and QR

Porta'e Noon electronic gate with a motor and a main board interacting with a stand with a barcode reader in the self-service checkout area.

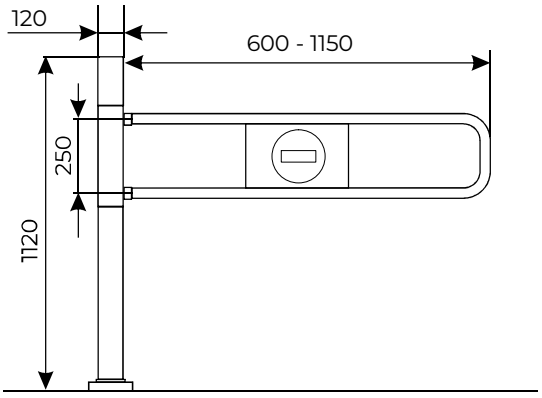

The gates will open only after the payment process has been completed and the receipt has been scanned through the barcode or QR code reader placed on the stand. The gate closes also automatically.
Standard without lighting.

Gate can be available in two option: right or left - opens in right side or left side.

Installed "anty-panic" system prevents from opening a gate in opposite direction. This system allows you to open an emergency gate at the appropriate pressure despite the blockade.

Gate attached to the ground.

DIMENSIONS:

ADDITIONAL EQUIPMENT:

As an option, it is possible to mount an arm to the gate:
- plexiglass (thickness 8 mm),
- with engraved drawing,
- illuminated (the effect of lighting is visible on the engraved drawing and on the edges of the arm).
