CHECKOUT BARRIER

MOUNTED DIRECTLY TO THE CASHIER COUNT

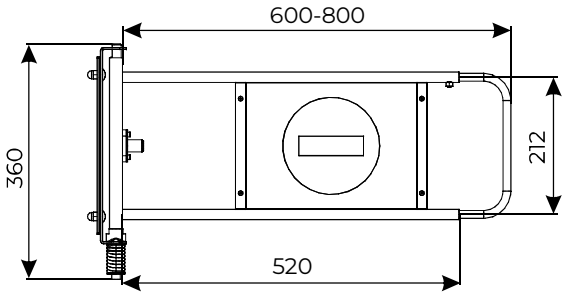

Checkout barrier without lock:
To open or close the gate lift the swivel arm and turn in requested direction. There is possibility of adjusting arm length to 600 mm to 800 mm.

Checkout barrier with lock:
To open or close the gate turn the key in lock, lift the lock and turn the swivel arm in requested direction.

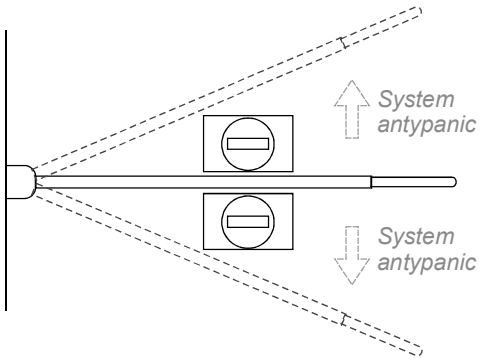

DIMENSIONS:

The gate is used in checkouts area.

Bidirectional gate - it is opened in right and left side.

Installed “anty-panic” system prevents from opening a gate in opposite direction. This system allows you to open an emergency gate at the appropriate pressure despite the blockade.
